IV. Test Steps

I've divided the test into 5 parts covering the full e-commerce workflow.

Step	Description
I.	**Account Creation**
1.	Open browser and go to https://demowebshop.tricentis.com/
2.	Click on 'Register' link in the top navigation bar
3.	Select 'Male' for gender radio button
4.	Enter First Name: 'Taranu'
5.	Enter Last Name: 'Ion'
6.	Enter Email: 'ion_test001@gmail.com'
7.	Enter Password: 'Test@1234!'

8.	Re-enter Password: 'Test@1234!' in confirm password field
9.	Click the 'Register' button to submit the form
10.	Click 'Continue' to proceed to homepage
II.	**Product Browsing**
11.	Click on 'Books' category in the top navigation menu
12.	Sort products by 'Price: High to Low' using the sort dropdown
13.	Click on 'Fiction' to view product details
14.	Click 'Add to cart' button to add the 'Fiction' book to cart
15.	Navigate back to Computers -> Desktops category
16.	Filter by price 'Under 1000.00' using the filter menu
17.	Click on the first product that appears - 'Build your own cheap computer'
18.	Select 'Fast' for Processor
19.	Select '8 GB' for RAM radio button
20.	Select '400 GB' for HDD radio button
21.	Check the 'Image Viewer' and 'Office Suite' from the software list
22.	Click 'Add to cart' to add Simple Computer to cart
23.	Navigate to 'Apparel & Shoes'
24.	Click on 'Blue Jeans' to view product details
25.	Change quantity to 2 using the quantity field (Qty)
26.	Click 'Add to cart' to add Blue Jeans to cart
III.	**Shopping Cart**
27.	Change quantity of 'Blue Jeans' to 0 using the quantity field
28.	Click 'Update shopping cart' button
29.	Check the 'terms of service'
30.	Click 'Checkout' button from the shopping cart page

IV.	Checkout
31.	Enter billing address: '123 Test Street, Romania, Pitesti, 100010'
32.	Enter the phone number: '0734 312 124'
33.	Click 'Continue' to proceed to shipping address step
34.	Verify the shipping address
35.	Click 'Continue' to proceed to shipping method step
36.	Select 'Next Day Air' shipping method
37.	Click 'Continue' to proceed to payment method step
38.	Select 'Credit Card' as the payment method
39.	Click 'Continue' to proceed to payment information step
40.	Enter cardholder name: 'Taranu Ion'
41.	Enter card number: '4111 1111 1111 1111'
42.	Enter card expiry: '12/2028' and CVV: '123'
43.	Click 'Continue' to proceed to order confirmation step
44.	Click 'Confirm' button to place the order
45.	Click on the 'Go to order details'
V.	**Post-Order Verification**
46.	Check if the order details match the order
47.	Click 'Logout' from the top navigation menu
48.	Check if the user is sent back to 'Home' page

V. Expected Results

Account Creation

- Registration form accepts all valid user data without errors
- Success message 'Your registration completed' is displayed
- User is automatically logged in after registration

Product Browsing

- Products are correctly filtered and sorted by price (high to low)
- Products priced above $900 are clearly visible and selectable
- Product detail pages load with accurate name, description, and price

Shopping Cart

- Items are added to cart with a visible success notification
- Cart correctly displays all added items with accurate prices
- Quantity updates and item removal work correctly
- Cart total is recalculated automatically after any change

Checkout

- All checkout steps complete without errors
- Billing/shipping address is saved and displayed correctly
- Payment information is accepted and processed
- Order confirmation page displays a unique order number
- Success message 'Your order has been successfully processed' is shown

Post-Order Verification

- Order details match items, quantities, prices, and address
- Logout completes successfully and redirects to homepage
